#### WILSON AND GEORGE AGREE ON RUSSIA

Peace Conference To Send Delegation To Poland To Investigate-U. S. May Have Fifth Delegate

Paris, Jan. 22-The Supreme Council of the Peace Conference this morning considered the Polish question and decided to send a mission to Poland, it is officially announced. A proposal from President Wilson regarding the Russian question will be discussed this afternoon, the statement adds.

When the council met today, Marshal Foch and Rear Admiral Hope of the British admiralty board, were present. It is assumed their presence meant the Russian situation on the Baltic and on the land front was dis-

Meanwhile according to the Paris edition of the London Daily Mail, President Wilson and Premier Llyod-George completely agree on a settlement of the Russian question which they regard as absolutely necessary preliminary to the formation of a league of nations and they are anxious to secure the evidence of accredited Bolsheviki representatives. On the status of Russian affairs, it adds, however, that French opinion is not at present in favor of inviting Bolsheviki representatives to present evidence as to exactly what territorial powers they claim.

While this subject is up for consideration, the question of President Wilson naming a fifth delegate to act on the American mission when he himself departs for home, has again arisen. William Howard Taft and Elihu Root are mentioned. Wilson's decision, however, depends wholly on whether he will consider it necessary to return to Europe after adjournment of the American Congress in

NOT a very big girl, Margaret. And when she stands up alongside of a great ocean boat she will not look any bigger.

But she is going to christen a boat just the same. Vinton County, Ohio, has chosen her-Margaret Fischer of Zaleski, Ohio.to be sponsor for the boat which that county won the right to name. Vinton County won the distinction in the last Liberty Loan campaign when it was the first county in the Cincinnati area to attain its quota in Liberty Bond sales. The county's quota was \$120,500, and It had subscribed that amount at the end of the first day of the drive. Its final subscriptions totaled \$158,850.

The boat is being built in one of the hig government ship yards and probably will be ready for the launching in Spring.

This healthy condition of the bond market is explained, perhaps, by the fact that the entire indebtedness of the United States today amounts to slightly less than 7 per cent of the estimated national wealth. The national debt amounts to only about \$170 per capita.

Some of the national dehts are: Great Britain, 44.3 per cent of national wealth or \$360 per capita; France. children were the guests of Mr. and 41.25 per cent of national wealth or \$296.90 per capita; Austria, 84.66 per cent of national wealth or \$242.90 per capita; and Germany, 38.7 per cent of national wealth or \$305.90 per capita. These figures on Germany are exclusive of the ninth war loan, accurate returns of which never were had, and In the cases of both Austria and Germany no account is taken of any indemnities which those nations may have to pay.

Japan is the only big nation which has a lower per capita debt in relation to its wealth than the United States.

STATE SERVICE FLAG

A large service flag containing 135 stars and one large gold star has been placed in his office by Major Henry F. Rhodes, Chief of the Selective Service Department. The 135 blue stars stand for the local draft boards and represent 66,500 Kentuckians drafted into the army. The large gold star in the center is "In memory of the Selective Service men who have sacrificed their lives in the world war." Although the casualty list has not been completed to date Major Rhodes is of the opinion that Kentucky will have between 1,800 and 2,000 men on the Honor Roll.

The Americans were eventually taken to Friedrichsfeldt, and no opportunity was missed to show the American prisoners to the populace, for they were among the carliest to be taken.

These Americans were taken to a camp where there were prisoners from all the other allied countries, and though there afterward seemed to be an attempt to single out Americans for better treatment, according to the returned men now here, they fared much the same as the others during the earlier part of their imprisonment. Until their own food parcels began to arrive they got considerable food from the generous British and other allied compatriots.
